

The Intelligencer.

OFFICE: No. 15 Quincy Street.

WEDNESDAY, NOV. 9, 1870.

The Next U. S. Senatorship from West Virginia.

We foresee that our Democratic friends like an individual grown suddenly and unexpectedly rich, have trouble in store for themselves in the matter of the spoils. The candidates are many but the places are few, and therefore many shall be called upon to look for their share of the spoils. The coming man for that important place is several persons would like to know. Already the pipes have begun to pipe, every man for his share. John Jackson's great services have been duly chronicled by the *Berlin* (ruffian) *Journal*, at Levisburg. And now comes a writer in the *Charleston*, Jefferson county, *New Press*, recommending Hon. Wm. H. Travis, who ever he may be, as "the man of all others who will be acceptable to the people of that section for United States Senator." And as if this announcement was not startling enough, the *Charleston* *Telegraph*, just received, informs us that it has heard "the name of Hon. CHAS. S. LEWIS mentioned in connection with the United States Senatorship from this State."

Thus we have three Richmonds in the field, already before the election returns are in, and the prospect is that in another week or two we shall see a candidate announced in every Democratic paper in the State. For instance we shall soon see on the bills the names of Col. Bex. WATSON, COL. BEX SMITH, the venerable JOHN HALL, HENRY G. DAVIS, CHAS. JAMES FAULKNER, JAMES H. PERCIBUS, GENERAL JACKSON, MORRIS JACKSON, ALLEN CAPERTON, SAMUEL PRICE, and perhaps also all the successful candidates on the State ticket, including PHILIPS and BUNNELL, and including also the two Congressmen elect. Indeed it would not be strange to see JOHN JEFFERSON DAVIS loom up as a formidable candidate, now that his South Carolina doctrines have been so fully endorsed in this "redeemed and demoralized" district. His thoroughly Democratic position on the pinner question, as to the niggers all being semi-monkeys with souls, have made him dear to the heart of the unwashed "nigger" haters, and their power at the polls is held in high respect by his competitors.

Our Ohio county champions and defenders of the faith will all have to stand back we presume, albeit they have borne the burden and heat of the day for so long a time, having "redeemed and demoralized" this county as far back as 1868, when the balance of the State was voting the Radical ticket. There are our friends DANIEL LAMB and NATHANIEL RICHARDSON, Esq., who have seen service in the cause, and received "more kicks than coppers" they too are altogether worthy to be mentioned in this brighter galaxy of stars. Then, too, there are Ex-Mayor SEWKEY and Capt. ANDREW WILSON, neither of whom are to be sneezed at as adroit politicians and both of whom would certainly accept rather than see any embarrassment in the camp.

But why should we exhaust our valuable space enumerating the possible candidates of the Democracy for this position of U. S. Senator when the mere agitation of the subject is so liable to mislead thousands of citizens into the idea of becoming candidates for the place. Their name is legion who are ready and willing to act upon the most remote suggestion. And yet, seriously speaking, if the Democracy would but allow us to put in our own on this question, we think we could solve their difficulties for them in a way that would go a considerable distance towards mitigating the sin of their triumph over our unfortunate Republicans in the election of not a few of our brethren. And that would be to take up some moderate and accomplished man like Mr. LAMB, and make him his candidate, and not rush into the foolishness of putting forward some representative of the "lost cause" under the idea that it will make a difference to the people. It will make a difference. The leading of the U. S. Senator this winter will be regarded with more than ordinary interest by the people, and they will all to the selection something of a test question as to what they are to expect at the hands of the Democracy in the way of statesmanship. The choice of a man like Mr. LAMB would be a convincing deference to the best element in the party, that would be recognized and appreciated, and if the party were committed by a very important constituency.

Of course we don't charge the Democracy anything for this good advice, and although they may regard it as cheap, let them remember that it is the policy of great generalship in war and peace not to despise the views of your adversary.

The Preacher of the Period.

The *Chicago Times* in an article on the clergy, says: "They are, as a rule, the best paid men for the smallest amount of work in the world, besides having a pass pendant into lecture rooms, concert halls, and everywhere else, and a certain decided tickle everywhere. The average preacher in a large city, good looking or a little sensational in discourse, is worth \$5,000 per annum, which means two essays a week, or one during an average winter, and an occasional trip to Europe. Reduced to a practical basis, which literary men can understand and appreciate, this would pay him about \$50 a week for newspaper work. His position is rendered all the more comfortable because this regular pay does not include the usual perquisites for funeral, marriages and baptisms, three sources of revenue which are, perhaps, the most reliable in the world, for all people must be born, all people must die, and nearly all people must get married. In other words, the preacher gets extra pay for any kind of service, and even for death in public, while almost everybody else goes unrewarded for telling the truth about them in private."

The *Times*, of England, says those Bishops who have not yet sent in their address to the Infallibility dogma, will be ordered to do so by a certain prescribed time, failing which they will be excommunicated and deposed.

POLITICAL NEWS AND GOSSIP.

An Indiana Republican claims that the party lost more white votes than it gained black ones on account of the Fifteenth Amendment.

The office of City Chamberlain in New York is said to be worth \$150,000 a year, \$42,000 of which he gets for the trouble of drawing one check.

The returns of all postmasters in the country of the free matter leaving their offices in the first six months of this year show that if it had all paid postage the receipts therefrom would have been \$9,000,000 of \$9,000,000.

The Republicans in Tennessee expect the State ticket to be defeated, but hope to elect two Congressmen at least—Judge Butler from the First, and Horace Maynard from the Second. Gen. Stokes will probably be defeated in the Third, as he has been sick and unable to speak in his district until within a few days past.

A politician, who was noted for never doing anything without a sinister purpose, having died, the clergyman who preached his funeral sermon said that it would have been a great consolation to the friends of the deceased, if they could have ascertained his motive in this suddenly leaving them.

Wendell Phillips says he does not want to be elected Governor, but wants to come so near it that Boston should be in doubt for twenty-four hours whether Claflin was elected.

Here's a verse that the *New York Tribune* quotes and applies to Wm. M. Tweed, the Democratic Mogul of that city:

"He was a man of an unbounded energy, ever ranking himself with princes, and by expectation 'T' all the kingdoms of the world was fair. His own opinion was his law; the presence of any man was his disgrace, and he was never far from the words and meaning, 'He was never, but where he went to rule, he ruled.'"

At the great closing demonstration of the campaign in St. Louis, on Saturday night last, several prominent leaders made stirring speeches, among them Col. Brown and Senator Schurz. The latter gave the following explanation of the situation in that State: "They begin to understand in the United States what the great movement in Missouri means. It means the laying aside of the issues of the war. It means the burying of the animosities and bitterness which have divided the people of the State. It means the revival of fraternal feeling all classes of our population. It means a new era in our history. It means the closing of the track for the living issues of the day. It means the assertion of the rights of a free people in the place of executive dictation. It means the breaking down of the appliances of wire pulling and proscriptivism, and all those means by which free men have been kept from controlling their own destinies. It means the setting in motion of the ball of that greatest reform which we need—the reform of the civil service. It means, in one word, the victorious bursting out of the new order of things."

WAR NEWS AND GOSSIP.

The rate for a passage in a Nadler balloon is \$400.

The Prince Imperial's baptism of water cost a little over \$180,000. His baptism of fire cost a crown.

German surgeons complain of the difficulty they find in curing the wounded French prisoners. The morals of the French army have been so loose that many of the soldiers are fearfully diseased, so that their wounds will not heal but suppurate terribly.

The amount of cash required for the North German army every day is about one million dollars. As the war has lasted not quite four months, so far about one hundred and fifteen millions of dollars has been expended for pay.

The mail going from Berlin to the front on October 10th, was so great that it filled one hundred and eighty-seven sacks, and that it took eleven freight cars to carry it. Two mail coaches were required besides, to transport the money packages sent by the soldiers.

Nearly one hundred thousand dollars have been received by the German Sanitary Commission at Berlin from the Pacific States of the United States. Of this the city of San Francisco has furnished about fifty thousand dollars.

The cartoon of *Harper's Weekly* is a vigorous picture of "Nast" representing "Military Glory." Death is thrown on State on the emblems of war, which on either side, enveloped in fearful gloom, are seen the dead and dying, devastated fields, burning cities, and all the horrors of war, which follow in its train. There are many other noticeable illustrations in the number.

Sources and Returns of Taxation to the Government.

WASHINGTON, November 6. The following is an abstract of collections on account of internal revenue in the United States in the fiscal year of 1870. The total net collections are given in each case: On spirits, \$55,354,411; tobacco, \$31,325,907; fermented liquors, \$6,816,881; banks and bankers, \$4,616,651; gross receipts, \$6,808,942; sales \$7,785,900; specie taxes not elsewhere enumerated, \$9,007,800; income, \$97,730,988; legacies, \$1,071,512; on successions, \$1,419,908; articles in alcohol, a tax on carriages, watches, etc., \$807,891; patents, \$28,756; gas, \$2,818,250; and interest, herein provided for, \$17,305; total penalties and collected, \$327,630; stamps, \$15,544,040; grand total, \$185,089,853.

The following statement shows the amount of taxes abated and rejected during the fiscal year ending June 30th last: Amount abated or uncollectible, \$1,028,931; amount abated as erroneous, \$1,008,402; total amount abated, \$2,037,333. The total amount abated during the year ending June, 1869, was \$1,270,532, being \$1,039,200 more than during the fiscal year ending June 30, 1870.

WEST VIRGINIA ELECTION.

Greenbrier. FOR GOVERNOR. Democrat. W. E. STEVENSON, 303 J. J. JOHNSON, 282.

SECRETARY OF THE STATE. Democrat. James M. PIPER, 321 John M. STANLEY, 271.

TRUSTEES. James A. Macfarlane, 293 John S. BARNETT, 241.

ATTORNEY GENERAL. A. B. CALDWELL, 269 J. Joseph SPIGGS, 217.

CLERK OF THE SUPREME COURT. W. H. WILCHER, 248 J. H. BARNETT, 217.

STATES SENATE. Caldwell, 258 SCOTT, 271.

Janet, 271 Nelson, 247.

Seeger, 264 Brown, 222.

Chambers, 254 Boland, 220.

Love in all its phases implies affection. Much must be conceded, much endured, if we would love.

Phalox's "Vitality," although transparent and colorless, will darken gray hair to black, and is worth double its price to fade.

Among the thousands of bottles of this chemistry it stands pre-eminent. It is clear and sweet smelling, and its name already is a household word.

Sold by all druggists and fancy goods dealers.

DIED.

MCMURRAY—On Monday, Nov. 7th, 1870, Mrs. M. A. MCMURRAY, in the 53rd year of her age. Funeral services at St. Matthew's Church, Wednesday, Nov. 9th, at 10 A. M. Friends of the family are respectfully invited to attend.

SPECIAL NOTICES.

DR. SCHENCK ADVISES CONSUMPTIVES TO GO TO FLORIDA IN WINTER.

Having for the last thirty years devoted my whole time and attention to the study of human life and consumption, I feel that I understand fully the course that ought to be pursued to cure the lungs, and to restore the system to its natural state. The first and most important step is for the patient to avoid taking cold, and to be of all other things the constant use of this medicine in winter, in Florida, will do more for the patient than any other medicine.

A good hotel is kept there by Peterson, and the patient can be comfortable and healthy. The climate is just what is needed, and the patient can be cured in a few weeks.

One hundred miles further down the river is a point which I would prefer to Palatka, as the climate is more even, and the water is better. Jacksonville, Melbourne and Enterprise are located there. I should give a decided preference to Palatka, as it is the most healthy and comfortable place for the patient to reside in.

My reasons for saying so are that patients are less liable to take cold there than elsewhere, and the climate is just what is needed for the cure.

It is in this case that they generally increase in weight, and then the lungs are cured. Jacksonville, Melbourne, Green Cove, and many other places in various parts of Florida, can be recommended to the patient, but I prefer Palatka, as it is the most healthy and comfortable place for the patient to reside in.

My reasons for saying so are that patients are less liable to take cold there than elsewhere, and the climate is just what is needed for the cure.
